## BUILT FOR GROWING FAMILIES

Life is busy so let the family-friendly, feature-packed SUV that can handle the pace join your family.

Elegant and powerful, luxurious and technologically advanced, Outlander is where capability meets versatility. Packed with family sized cabin and luggage space plus a choice of five or seven seats. Outlander's advanced technology keeps you entertained as it does connected.

Comfort is also knowing you're keeping your family safe with highly advanced MiTEC safety features. So, wherever you're going and whoever you're taking, Outlander is built for the time of your life.

### OUTLANDER, BUILT FOR THE TIME OF YOUR LIFE.

*Since 1917 Mitsubishi Motors has been at the forefront of technological innovation. Having launched the inventive Super-Select 4WD system and the world's first Plug-in hybrid electric SUV, our vehicles have been tested, trialled and triumphant in some of the earth's toughest terrain including the Dakar Rally. These engineering milestones, together with our commitment to reliability and ingenuity sets us apart. As we continue to move forward, pushing the boundaries of innovation, you can rest assured your Mitsubishi has been built for the time of your life.*

## BUILT FOR YOUR EVERYDAY GETAWAY

What's on this weekend? From camping trips to a day at the beach, the kids' footy finals or loading up for that big weekend project, Outlander's versatility has every mission covered.

### OUTLANDER INTERIOR

The luxurious interior has been designed so that everything is within arm's reach, while still creating a feeling of open space and comfort.

Sink back and be surrounded by interior indulgence. Premium finishes that include leather appointed seats\*; heated front seats\*, a sleek piano black instrument panel and a silver stitched leather bound steering wheel with phone, audio and cruise control switches. A Multi Around Monitor camera is also on hand in Exceed models.

### AN OUTLANDISH NUMBER OF FEATURES

+ Time to connect. Smartphone Link Display Audio (SDA)<sup>^</sup> is a true extension

of your smartphone via Android Auto<sup>™1</sup> or Apple CarPlay<sup>2</sup>. Connected to large 8" touchscreen, you can access your phone's compatible Apps and get directions, make calls, send and receive messages and listen to music from any source including DAB+ radio. With smartphone and USB connectors in the centre console, 2 USB power ports in rear centre console<sup>†</sup>, everything is taken care of. To ensure safety while you drive, the primary call and music streaming functions can be controlled by voice command or by steering wheel controls, so your eyes stay focused on the road ahead.

+ Exceed models also feature fully integrated Navigation system and Mitsubishi's Power Sound System 8 speaker audio.

+ Outlander's roomy interior gives your family generous head and legroom as well as plenty of in-cabin storage space including a handy 12V socket in the instrument panel and rear cargo area.

+ Both the second row and third row seats (7 seat models) can be easily re-arranged and with reclining seatbacks, make for a comfortable ride. You can even fold down all rear seats to create a large, flat luggage area for that weekend away.

+ Built for busy hands, the Exceed's power tailgate\* conveniently opens and closes with the touch of your Smart Key<sup>®</sup>.

+ Dual zone climate control means you can regulate temperature for the driver and front passenger.

+ Ensure a comfortable ride using tilt and telescopic steering to find your optimum driving position.

+ For added convenience, Auto models feature a Brake Auto Hold<sup>†</sup> switch that allows the vehicle to be held stationary without the need to keep your foot on the brake, along with a convenient push button electric park brake<sup>†</sup>.

\*Exceed models only. #LS and Exceed models only. ~Leather appointed seats are a combination of genuine and artificial leather, but are not wholly leather. ^Smartphone Link Display Audio (SDA) supports Android Play 5.0 or higher/iOS 8.0 or higher for use with Android Auto<sup>™</sup> / Apple Car Play. ^Smartphone Link Display Audio will not operate in areas with no service signal and may not operate in supported areas where the signal is weak. Users are responsible for all charges incurred using smartphones and iPhones to connect to Android Auto<sup>™</sup> and CarPlay respectively. Some functions may not be available for use depending on the user's location. Only compatible Apps can be used. 1. Android<sup>™</sup> and Android Auto<sup>™</sup> are trademarks of Google Inc. 2. Apple CarPlay and iPhone, are trademarks of Apple Inc., registered in the U.S. and other countries. †Not available in ES 5 seat model.

**OUT STYLE**

Exceed model shown

# OUTLANDER

Outlander's distinctive lines and bold presence make a statement on the road. Stylish and sophisticated its contemporary dynamic shield grille and streamlined shark fin antenna will turn heads. Every where you look at it, thoughtful design and innovation is on display.

- + 18" alloy wheels and LED Daytime Running Lamps and tail lights reflect Outlander's cool, distinctive style.
- + Sun-day drivers will love Outlander Exceed's sunroof\* which gives your passengers a whole new perspective, filling the interior with light and a feeling of space.
- + Exceed and LS' handy Smart Key† lets you lock and unlock doors, open the tailgate and even start the engine with the touch of a button, all while your Smart Key is tucked safely in your bag or pocket.

- + Outlander is equipped with front wipers that activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead‡.
- + Dusk sensing headlights automatically illuminate in fading light or when travelling through a tunnel‡.
- + See what a difference the automatic high beam system™ on ES ADAS, LS and Exceed models makes at night. It detects both the headlights of oncoming vehicles and the tail lights of vehicles ahead, automatically switching between high and low beams.
- + Privacy glass\* on the back and rear windows help keep your interior hidden from prying eyes, while protecting your passengers against UV rays.

# OUTLANDER

## BUILT FOR THE ROAD AHEAD

Whether you're a petrol or diesel fan, the Mitsubishi Outlander has you covered. Choose the 2WD ES 5 seat with its zippy 2.0L petrol engine, or the 2WD or AWD models with the punchy 2.4L petrol option. Either way, you won't be disappointed.

The power from the 2.0L is delivered through a 5 speed manual transmission. The 2.4L comes standard with the CVT auto which has infinitely variable gear ratios to allow the engine to always operate at the optimum RPM, irrespective of the vehicle's speed. This maximises power and economy, ensuring a smooth, stable ride with seamless gear changes.

If fuel economy is king, Outlander AWD has the option of a 2.2L Direct Injection Diesel, which uses an exceptionally low 6.2 litres per 100km\*. While at the same time producing a powerful 110kW and a huge 360Nm of torque. Channelling this through a smooth 6 speed auto transmission results in an effortless driving experience in all situations.

### **ELECTRONIC CONTROL AWD\***

Outlander performs no matter what surface you're on. The Electronic Control AWD uses a variety of intuitive sensors to maximise driver control to improve acceleration and stability performance. Highly advanced, this system has evolved so your intention as the driver is conveyed through all four wheels.

### **STAY IN TOTAL CONTROL AWD WITH S-AWC\***

Challenges arise when you least expect them. Whether navigating winding roads or snowy conditions, the Super All Wheel Control (S-AWC) system supplies optimal torque to rear wheels for enhanced vehicle dynamics, stability and control. S-AWC integrates with Mitsubishi's Active Yaw Control (AYC), which uses braking to optimally distribute torque to the left and right wheels. Even if you unintentionally brake or accelerate too hard around a slippery or snow covered turn, you can maintain control without extra steering effort.

You can choose AWD ECO, NORMAL, SNOW or GRAVEL drive mode on road conditions to enhance accuracy, straight-line stability and manoeuvrability on slipper roads.

### **A SMOOTHER ROAD AHEAD**

Outlander is equipped with superior stability, handling and ride comfort for smoother all-round driving. A wide track and long wheelbase provides a sturdy foundation while the MacPherson strut front and multi link rear suspension glides you over road bumps and uneven off-road conditions. Outlander's shock absorbers and stabilisers are precision tuned for sporty performance, ensuring superior cornering and sure footed stability.

### **ECO DRIVE SUPPORT SYSTEM**

With Outlander, it's easy being green. The ECO Drive Support System lets you review driving information for each time period you designate. The Outlander even displays a gauge that gives you a rating on a scale of 5 stars to show your car's performance\*.

# OUTLANDER

# GUIDE. PROTECT. CONNECT.

# MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system^ of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body have earned Outlander the maximum ANCAP safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

TESTED 2014 ★★★★★

#### Rear Cross Traffic Alert\*\*1

Mitsubishi's Rear Cross Traffic Alert system helps detect a moving vehicle when reversing. It alerts you via a buzzer sound, and an indicator light appearing in the combination meter and blinking light in the side door mirror.

#### Blind Spot Warning\*\*2 & Lane Change Assist\*\*2

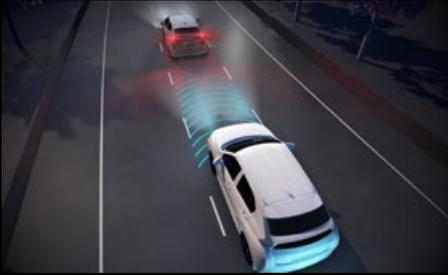

Mitsubishi's Blind Spot Warning and Lane Change Assist helps you change lanes with confidence. The Lane Change Assist system sounds an audible alert and displays a blinking warning in the door mirror when the system detects a high collision probability with a vehicle coming from behind moving to the same direction within 3.5m from your vehicle's side or 70m from its rear bumper.

#### Lane Departure Warning†

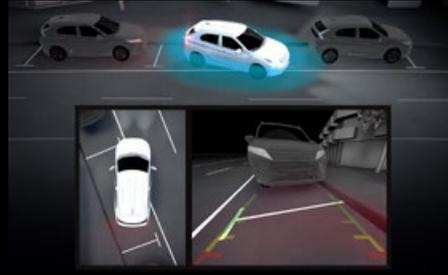

Mitsubishi's Lane Departure Warning uses a camera to issue an audible alert and shows a warning on the multifunction display if your vehicle drifts from its lane while the turn signals are not operating.

^Please drive safely and never rely solely on these systems while driving. Drivers are fully responsible for their own safe driving.\*Exceed models only. †ES ADAS, LS and Exceed models only. 1. Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. 2. The detection and control capabilities of BSW and LCA are supplementary only and do not warn you of vehicles in blind spot every situation. BSW and LCA may not activate in some situations.

#### Forward Collision Mitigation<sup>3</sup>

Mitsubishi's Forward Collision Mitigation system detects obstructions ahead and issues a visual and audio alert when there is a danger of collision, automatically applying the brakes to avoid collision or reduce impact.

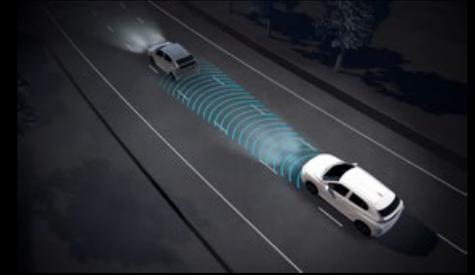

#### Multi Around Monitor\*

Mitsubishi's Multi Around Monitor provides a 360° birds-eye view of your car. The view from cameras mounted on the front, rear and sides of the vehicle (including birds-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

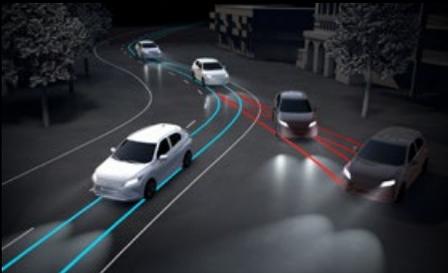

#### Ultrasonic misacceleration Mitigation System\*<sup>4</sup>

Mitsubishi's Ultrasonic misacceleration Mitigation System reduces the chance and severity of hitting obstacles 4m in front or behind when a driver mistakenly presses the accelerator when stationary or at speeds up to 10km/h.

#### Adaptive Cruise Control<sup>1</sup>

Mitsubishi's Adaptive Cruise Control uses radar technology to detect any cars in the lane ahead and adjusts the speed of your car accordingly while maintaining a safe distance set by you.

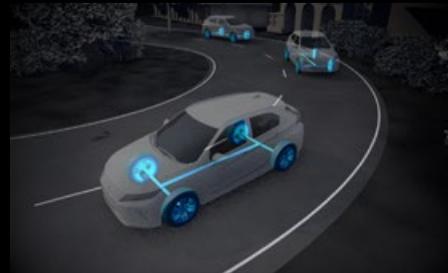

#### Active Stability Control

Mitsubishi's Active Stability Control intuitively recognises when you over-steer or under-steer and applies the brake force to appropriate wheels to keep you stable through corners.

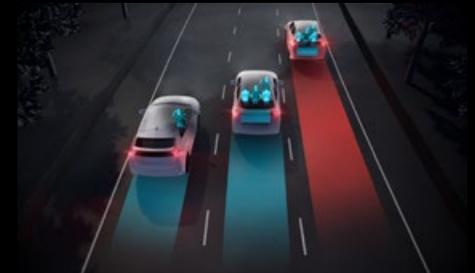

#### Active Traction Control

Mitsubishi's Active Traction Control helps maintain traction on most slippery or rugged surfaces. Active Traction Control automatically controls the engine output – so driving wheels are prevented from spinning. Sensing loss of traction in independent wheels it then applies braking force to that particular wheel and sends extra power and torque to other wheels with traction, to keep the vehicle moving and in control.

#### Super All Wheel Control (S-AWC)

Mitsubishi Motor's Super All Wheel Control system brings out the full potential of the AWD system without compromising safety, comfort or fuel efficiency. S-AWC supplies optimal torque to the wheels for enhanced vehicle dynamics stability and control. It integrates with Mitsubishi Motor's Active Yaw Control, which uses braking to optimally distribute torque to left and right rear wheels.

#### Electronic Brakeforce Distribution

Mitsubishi's Electronic Brakeforce Distribution works hand-in-hand with your car's Anti-lock Braking Systems computer to assess load and distribute braking force between the front and rear wheels. When you have a load in the rear, it helps you stop in a shorter distance than standard brakes.

#### Anti-lock Braking System

Mitsubishi's Anti-lock Braking System allows the driver to maintain steering control of the vehicle and manoeuvre around obstructions in heavy braking situations.

#### Auto Dusk Sensing Headlamps<sup>1</sup>

Mitsubishi's Dusk Sensing Headlamps automatically illuminate in fading light or when travelling through a tunnel, allowing you to keep your hands on the wheel and your focus on the road ahead.

#### Hill Start Assist

Steep city streets or congested shopping mall ramps are no longer a problem with Mitsubishi's Hill Start Assist technology. It prevents the car from rolling backwards by maintaining braking force to give you time to move your foot from brake to accelerator.

#### Auto High Beam<sup>1</sup>

Mitsubishi's Auto High Beam detects both the headlights of oncoming vehicles and the tail lights of vehicles ahead, automatically switching between high or low beams.

\*Exceed models only. <sup>1</sup>ES ADAS, LS and Exceed models only. <sup>3</sup>The detection and control capabilities of FCM are supplementary only and do not prevent collisions in every situation. Please read the operation manual carefully and be aware of these limitations. <sup>4</sup>Ultrasonic misacceleration Mitigation System (UMS) may not activate in some conditions. The engine output control activates when driving; 01-10km/h (not in N or P Position); obstacle/vehicle is within approx. 4m range; accelerator pedal is pushed hard or abruptly; driver is not turning to avoid obstacle/vehicle. The detection and control capabilities of UMS are supplementary only and do not prevent misacceleration in every situation.
